Re: Unit 667 New 2019 or Current Production Front Loading Refuse Truck with Trade-In

Bids were received and opened on July 23, 2019 for the delivery of Unit 667 New 2019 or Current Production Front Loading Refuse Truck with Trade-In for the Solid Waste Division. The bids were as follows:

CMI Teco Casper, WY	Base Bid \$265,862.00	Trade-In \$35,000.00	Total Cost \$230,862.00
Peterbilt & LaBrie Cheyenne, WY	Base Bid \$269,844.00	Trade-In \$25,000.00	Total Cost \$244,844.00
Peterbilt & Newway Laramie, WY	Base Bid \$284,566.00	Trade-In \$70,000.00	Total Cost \$214,566.00

The CMI Teco unit is a 2020 Mack TerraPro with a delivery date of April 15, 2020. This unit has a Sears C2 seat instead of the specified Bostram seat. Tires were a different tread pattern than specified, and the engine does not meet the horsepower requirements. This unit does not have an inspection port in the hydraulic reservoir, nor is the hydraulic tank pressurized. Prices were not given on alternate items.

The Peterbilt & LaBrie unit is a 2020 Peterbilt 520 with a delivery date of 365 days after receipt of Notice of Award. This unit does not have an inspection port in the hydraulic reservoir, nor is the hydraulic tank pressurized. Alternate 1 (backup sensor) will cost \$2,400.00. Alternate 2 (power windows) is included, and alternate 3 (air ride passenger seat) is \$300.00.

The Peterbilt & Newway unit is a 2020 Peterbilt 520 with a delivery date of 365 days after receipt of Notice of Award. This unit does not have a front mounted ladder, and the return line filter is with the body hoist instead of in the hydraulic tank. The hydraulic tank is not pressurized, and the unit has a service hoist instead of a safety prop. This body manufacturer is not ISO 9001 certified. Alternate 1 is included, alternate 2 (power windows) is included, and alternate 3 (air ride passenger seat) is \$350.00.

I recommend the City accept the Peterbilt & LaBrie body with all alternates for a total cost of \$247,544.00. Besides not meeting all the specifications, we have had problems getting warranty work done through CMI Teco in the past which has resulted in significant down time, and loss of productivity.

Solid Waste has \$320,467.00 budgeted for the purchase of the unit.

Please contact me if you have any questions regarding this bid.
