

CITY OF LARAMIE COUNCIL WORK SESSION February 25, 2020

Agenda Item: Presentation

Title: Environmental Advisory Committee Recommendations on Emissions Reduction and Carbon Neutrality.

Recommended Council MOTION:

None.

Administrative or Policy Goal:

2020 City Council Goal: Environmental Stewardship

Milestone #4 – Review opportunities for renewable energy installations at City Facilities and Properties.

Background:

A student project at the Haub school Campus Sustainability course in the spring of 2019 worked on a municipal emissions calculator using data provided by the City from 2018 operations. Then an intern funded by the Haub School completed the calculator and presented the results to Council at a work session on August 27, 2019. In addition, the Alliance for Renewable Energy (ARE) citizens group also presented to Council asking for the development of an emissions reduction plan and targets. As a result, City Council and the City Manager asked the Environmental Advisory Committee (EAC) to look at this topic and provide their recommendations. These recommendations were intentionally timed to be provided in advance of upcoming Council budget meetings.

Legal/Statutory Authority:

None.

Responsible Staff:

Janine Jordan – Laramie City Manager
307-721-5226
