Director

MEMORANDUM

TO: Laramie Urban Systems Committee

FROM: Juli Monahan, Policy & Planning Analyst, WYDOT, Cheyenne

DATE: July 1, 2020

SUBJECT: Amendment to Laramie Urban Functional Classification Map

Please make the following change to the Laramie Urban Area Functional Classification Map dated December 11, 2017. This change was approved by this committee on September 6, 2017 in relation to the approval of the Laramie Major Street Plan but not the functional classification map.

1. Bill Nye Avenue be realigned with Palmer Street. Currently shows alignment with Sanders Street.
2. 4th Street south of Russell Street be reclassified as a collector. Please clarify the spelling of Russell as well.

There should also be additional discussion by the committee of the neighborhood streets affected by the removal of the Clark Street Bridge and what their classification should be. Clark Street was previously a principal arterial but may now be considered a local street.

All three locations are shown in the attached Figure 1.
