

Community Concert Series with Laramie Plains Civic Center + Gryphon Theater

Adam Bender of the Gryphon Theater approached Laramie Public Art Coalition with a request to partner on a community concert series during the summer of 2021. The Civic Center and the Library are working together to host a weekly community celebration on eight Thursdays in July and August. Garfield Street between Seventh and Eighth is proposed to be shut down, so the community can gather to enjoy activities from the library, music, and food vendors.

It is LPAC's understanding that the Thursday Market at Undine is also in talks with the Civic Center and Library about combining efforts, either through being onsite or joint marketing efforts.

Because of the community partnerships being formed, LPAC is happy to support this project moving forward. The Gryphon is hopeful that this summer lays the groundwork for future offerings with the Thursday night series being a draw for locals and tourism.

LPAC proposes a budget ask of \$8,000.00 for the summer 2021 series, which will go directly to paying musicians and performers.
