The City of Laramie, Wyoming, will conduct a public meeting at 5:00 pm, local time, on Wednesday September 16, 2020 via Zoom Video/Phone Conferencing. Meeting information will be made available through the City of Laramie website, <https://cityoflaramie.org/709/City-Projects>. The purpose of the meeting is to allow citizens to review and comment on the City of Laramie North Side Outfall Line that will extend sewer mains to service areas without current service. This project will result in major improvements and a sustainable infrastructure solution to allow continued development in the City. The project will incorporate approximately 14,000 lineal feet of sewer line and manholes along the northern edge of the City and will flow to an existing lift station.

At the meeting, the City of Laramie will present the preliminary design of the proposed project and will discuss the estimated cost of the improvements and the plan for funding the improvements. A preliminary plan of improvements, cost estimates, and the funding plan can also be reviewed at the City of Laramie at 406 Iverson Avenue, Laramie, Wyoming. Contact William Winkler, P.E. at (307)721-5273. There will be no user rate increase associated with this project. The City of Laramie plans to borrow money from the Wyoming Clean Water State Revolving Loan Fund administered by the Wyoming Office of State Lands and Investments. It is estimated that the City will borrow \$2,500,000 at a 2.5% interest rate for 30 years. Written or emailed comments are also welcome. Send written comments to William Winkler, P.E. at PO Box C, Laramie, Wyoming 82073 or email comments to engineering@cityoflaramie.org by 4:00 p.m. on Tuesday September 15, 2020.

For questions please contact:
