Section 1: That LMC 15.24 be amended to read as follows in the included sections:

Chapter 15.24 - BUILDINGS AND CONSTRUCTION

15.24.000 - General provisions.

- A. The purpose of this chapter is to protect the health and safety of the public by regulating the construction, alteration, repair, demolition, and moving of buildings and structures within the city. The ~~2018~~ most recently issued editions of the International Residential Code for One-and Two-Family Dwellings, International Building Code, International Existing Building Code, International Mechanical Code, International Plumbing Code, International Fuel Gas Code, and the International Energy Conservation Code, all are adopted as published by the International Code Council; the ~~2017~~ most recently issued edition of the National Electrical Code, published by the National Fire Protection Association, are hereby adopted with certain amendments, additions and deletions thereto found to be in the best interest of the residents of the city. (Ord. 1466 § 2(att. A), 2005; Ord. 1538 § 1, 2008; Ord. 1754, 11-7-2018).
- B. Building official.
 1. Generally. There is created the office of the building official. The city manager shall designate a representative to act as the building official. (Ord. 1223 § 1, 1998; Ord. 928 § 1, 1988: prior code § 9-1).
 2. Recordation. The building official shall keep complete records of all permits issued and inspections made and other official work performed under the provisions of this title. (Ord. 928 § 5, 1988: prior code § 9-2(d)).
 3. Fees.
 - a. Determination of Fees. The city council shall determine, adopt and amend fees required under this chapter pursuant to subsection 15.06.030.B. of this code.
 - b. Fees to be Paid. No permit, license, application, or other fees shall be processed until the established fee has been paid.
 - c. Refund of Fees. Permit, license, application, certificate, and all other fees required by this code are nonrefundable. The following exceptions may only be refunded within one hundred eighty days of the fee ~~payment or~~ overpayment:
 - (i) The city manager's office or other applicable reviewing body determines that an application was accepted in error.

- (ii) The fee paid exceeds the amount due. Overpayment will be refunded to the applicant.
- (iii) No more than eighty percent of any permit fee may be refunded when no work has been issued in accordance with this code.
- (iv) No more than eighty percent of any plan review fee may be refunded when an application is withdrawn or canceled before any plan review effort has been expended.

c. Violation, penalty, ~~and~~ enforcement, [and appeals](#).

1. Purpose. The city council finds that the enforcement of the municipal code and applicable building and fire codes throughout the city is vital to the public's health, safety and quality of life, and depends upon effective judicial and/or administrative enforcement.
2. General Penalty. Any person or entity violating the provisions of this chapter may be prosecuted and punished pursuant to chapter 1.28 of this code and/or pursuant to a citation issued under this chapter, and may also be subject to judicial action to compel compliance with this chapter.
3. Citation Authority.
 - a. Pursuant to Wyoming statutes, council hereby appoints special municipal officers, to be specifically designated by the city manager by name or position, to issue citations into municipal court for the purpose of enforcing violations of this chapter of the Municipal Code. These special municipal officers are not peace officers and are subject to the rights and restrictions set out in Wyoming Statutes.
 - b. Persons or entities violating provisions of this chapter are subject to, along with any other applicable penalties or re citations into municipal court bearing the following fines, exclusive of court costs and other fees:

The application shall be accompanied by:
 - (1) A nonrefundable permit fee in the amount of one hundred dollars;
 - (2) A certificate of insurance acceptable to the city attorney as to company, form and content, indicating a commercial auto liability policy with one million dollars combined single-limit bodily injury and property damage;

- (3) A corporate surety bond, with a company and in form and content acceptable to the city attorney in the amount of ten thousand dollars, running to the city as an indemnity to insure compliance with the requirements in [subsection] 15.24.010.F.4.
 - c. Inspection—Grounds for Refusal. The building official shall inspect the building and the applicant's equipment to determine whether the standards for issuance of a permit are met. He shall refuse to issue a permit if he finds:
 - (i) That any application requirement or any fee or deposit requirement has not been complied with;
 - (ii) That the building is too large to move without endangering persons or property in the city;
 - (iii) That the building is in such a state of deterioration or disrepair or is otherwise so structurally unsafe that it could not be moved without endangering persons and property in the city;
 - (iv) That the applicant's equipment is unsafe and that persons and property would be endangered by its use;
 - (v) That zoning or other ordinances would be violated by the building in its new location;
 - (vi) That for any other reason, persons or property in the city would be endangered by the moving of the building.
 - d. Issuance. Upon determination that all standards for issuance of the permit are met, the building official shall issue the permit and deposit the surety bond and evidence of auto liability insurance in force with the city treasurer.
 3. Assurance of public safety. The building official and the chief of police shall act to assure maximum safety to persons and property in the city and to minimize congestion in traffic hazards on public streets.
 4. Permittee's Duties. Every permittee under this section shall:
 - a. Move a building over only the streets or alleys designated for such use in the written permit;
 - b. Notify the building official in writing of a desired change in moving date and hours as proposed in the application;
 - c. Notify the building official in writing of any and all damage done to property belonging to the city or other persons or their property within twenty-four hours after the damage or injury has occurred;
 - d. Provide flagmen, warning lights or flares as required by the chief of police to warn the public of the obstruction and to protect the public from damage or injury by reason of the removal of the building;
 - e. Comply with the fire and building codes, the zoning ordinances and all other applicable ordinances and laws upon relocating the building in the city;
 - f. Remove all rubbish and materials, fill all excavations as required by section 8.64 of the Laramie municipal code, and provide erosion prevention measures as described by subsection 15.14.020.E., of the unified development code. Excavations may be fenced or barricaded, and materials may be stored on such site, as directed by the building official where a valid building permit has been issued for new construction;
 - g. Ensure that the sewer and water service lines are abandoned, as required by the utility. Permittee shall notify the telephone, television, gas and electric service companies to remove their services;
 - h. Not permit the building being removed to remain on any street or alley of the city between the hours of sunset and sunrise unless authorized in writing by the building official.
 5. Permittee's Liability. The permittee shall be liable for damage to any street, alley, or improvement, including damage to trees, landscaping, signs, utility poles and lines, traffic signals and other public or private improvements.

Section 507.3 and 507.5 are amended to read as follows:

- a. An approved water supply capable of supplying required fire flow for fire protection shall be provided to all premises upon which facilities, buildings or portions of buildings are hereafter constructed or moved into or within the jurisdiction. When any portion of the building protected is in excess of 150 feet, as measured by an approved route around the exterior of the facility or building, from a public street or approved fire department access roadway on which a water supply meeting requirements is provided there shall be provided, when required by the chief, on-site fire hydrants and mains capable of supplying the required fire flow.
- b. Water supply may consist of reservoirs, pressure tanks, elevated tanks, water mains or other fixed system capable of supplying their required fire flow.
- c. The number, type, and location of fire hydrants connected to a water supply capable of delivering the required fire flow shall be provided on the public street, approved fire apparatus access road, or on the site of the premises to be protected as required and approved by the fire chief or the fire code official. All hydrants shall be accessible to fire department apparatus from city streets or fire apparatus access roadways meeting the

requirements of the 2015 International Fire Code Section 503 or 2015 IFC Appendix D.

- d. Fire hydrant spacing for all zoning classifications shall conform to the following criteria (Fire hydrant spacing distances shall be measured in a linear manner along the street or access roadway frontage as fire apparatus is driven along a city street or fire apparatus access roadway. Hydrant spacing distances shall not be measured as a radius around a hydrant location.):
 - (i) Zones RR, R1, LR, R2, AG, AV, and R2M. No point on a city street or approved fire department vehicle access roadway serving the structure shall be more than 400 feet from a fire hydrant. Fire hydrants shall be placed no more than 800 feet apart.
 - (ii) Zones R3. No point on a city street or approved fire department vehicle access roadway serving the structure shall be more than 200 feet from a fire hydrant. Fire hydrants shall be placed no more than 400 feet apart.
 - (iii) Zones B1, LM, NB, and O. No point on a city street or approved fire department vehicle access roadway serving the structure shall be more than 200 feet from a fire hydrant. Fire hydrants shall be placed no more than 400 feet apart.
 - (iv) Zones B2, AE, DC and C2. No point on a city street or approved fire department vehicle access roadway serving structure shall be more than 200 feet from a fire hydrant. Fire hydrants shall be placed no more than 400 feet apart.
 - (v) Zone I1, I2, and IP. No point on a city street or approved fire department vehicle access roadway serving the structure shall be more than 200 feet from a fire hydrant. Fire hydrants shall be placed no more than 400 feet apart.
 - (vi) Except that owners of a single-family dwelling within the corporate limits West of Interstate 80 and meeting the requirements of International Fire Code Section 503 and located no further than one intersection from a city fire hydrant shall not be required to provide additional fire hydrants.
 - (vii) Hydrants shall be placed at city street intersections or at the intersection of a city street and the fire apparatus road serving the structure whenever possible. Any additional hydrants required along a fire apparatus road shall comply with the hydrant spacing requirements dictated by the underlying zoning district.
 - (viii) When on a divided highway, hydrants shall be placed on each side of said highway in accordance with the spacing requirements dictated by the underlying zoning district.
 - (ix) Fire hydrants shall be placed no more than 800 linear feet apart along roadways serving undeveloped areas whenever new water lines are laid or old water lines replaced.
 - (x) Before any construction involving combustible materials in any subdivision may begin:
 - (1) All fire hydrants shall be operational.
 - (2) Streets shall be provided with all-weather driving surfaces able to support the imposed weight fire department apparatus.
 - (3) Fire hydrants shall be inspected and approved by city of Laramie public works department or Engineering Department inspectors.
 - (4) All fire hydrants shall have been flushed and operated.
 - (5) Fire hydrant threads and drainage shall have been checked and approved.
 - (xi) Installation and material specifications for fire lines and fire hydrants

shall be in accordance with city standards as determined by the city engineer. Fire hydrants shall be installed and maintained so that the breakaway flange is within two inches of the finished grade. Hydrants shall be installed so that the 4.5 inch diameter outlet faces the city street, fire apparatus road or fire lane adjacent to the fire hydrant.

- (xii) That the person or persons creating the need for additional fire flow will pay for the cost of improvement. The city may enter into agreement with the person or persons paying initial costs so that those benefiting in the future will pay a proportionate share based upon square footage of land area. The city may participate where oversize lines are needed or where the city will directly benefit from improvements in the water system.
- (xiii) Appendix Chapters B (Fire Flow Requirements for Buildings) and C (Fire Hydrant Locations and Distribution) of the International Fire Code and/or the Insurance Service office Commercial Grading Schedule shall be recognized as standards of good practice which may be enforced by the fire chief or the fire code official whenever other provisions of the code are, at the fire chief's discretion, inadequate or inapplicable to any situation involving the protection of persons and property from the hazards of fire or explosions. (Ord. 1466 § 109, 2005, Ord. 1538 § 35, 2008).
