

# 1<sup>ST</sup> STREET

PARKING & ADA IMPROVEMENTS

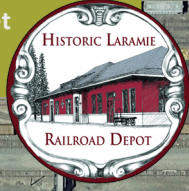

## NEIGHBORHOOD MEETING #2

WHEN:

May 15<sup>th</sup>, 2025 | 11am-1pm, 5-7pm\*

WHERE:

Historic Railroad Depot | 600 1st Street

## IMPROVE STORM DRAINAGE

### IMPROVE ACCESSIBILITY

Depot Park

Historic Laramie Depot

### IMPROVE PARKING

Jackalope Parking Lot

South 1st Street

E. Park Ave

E. Garfield St

## PROJECT PROCESS

The project will be completed in several key steps:

- Collecting input and relevant information
- **Developing conceptual design options** ————— **We Are Here!**
- Providing a preferred concept design
- Developing Construction Documents

If you are unable to attend neighborhood meetings during the designated times please email: [tfeezer@cityoflaramie.org](mailto:tfeezer@cityoflaramie.org) to schedule a time to meet between 1-5pm.

Throughout the project there will be opportunities for the public, business owners, property owners and community leaders to provide input on the project. Key Input opportunities available include online surveys, neighborhood meetings and council meetings.

**Review our concepts and provide your input!**

# 1<sup>ST</sup> STREET

PARKING & ADA IMPROVEMENTS

## PROJECT STUDY AREA

## PROJECT OVERVIEW

The south 1<sup>st</sup> Street area is a key destination & cultural hub within Downtown, hosting the Jubilee Days Carnival, Brewfest, Farmer's Market, and other iconic Laramie events.

As part of continued efforts to improve user experiences in the area, the City of Laramie is collaborating with WWC Engineering & Norris Design to develop a preferred plan for parking improvements along 1<sup>st</sup> Street and in the Jackalope Parking Lot while addressing ADA access and storm drainage throughout the project area.

*The project is NOT proposing any modifications to the Historic Laramie Depot or its parking lot.*

The project intends to bring the roadway cross section up to City standards. How that is accomplished is undetermined at this time and will be explored as part of this project, evaluating benefits to parking, ADA access and improved storm drainage.

The design team is seeking input from the public and wants to hear from you to help prioritize much needed improvements in this area. Construction of the improvements is not currently scheduled.

## PROJECT OBJECTIVES

### **Improve Parking**

Parking is always at a premium in any Downtown and is critical to supporting businesses and events. The current layout of the Jackalope Parking Lot has room for improvement and parking along 1<sup>st</sup> Street is also not maximized. Improving the availability, configuration and quantity of parking spaces will support economic development in the Downtown.

### **Improve Accessibility & Access**

With an expanded number of visitors of all abilities working in and visiting the Downtown, improving access and accessibility within the Depot Park area will benefit both residents and businesses. Lessening steep walkway slopes, re-aligning pathways to efficiently reach destinations and improving the quality of pathway surfacing will improve access and overall safety for everyone who visits this area.
